	<p>SDNP/22/01668/PRE Phoenix Inn, High Street, Twyford</p> <p>No comments to make at this stage.</p>
<b>P86/21</b>	<p><b>Update on planning decisions April 2022</b></p> <p>The report was <b>received</b> and <b>noted</b>.</p>
<b>P87/21</b>	<p><b>Winchester District Local Plan</b></p> <p>Members considered correspondence from WCC advising that consultation with Town/Parish Councils on the identification of SHELAA sites had been extended until 31<sup>st</sup> May. To date Twyford Parish Council has not been involved in this process as the parish is outside of the local plan area for Winchester and sits with the South Downs Local Plan area.</p> <p><b>It was Resolved</b> to submit the following representation to WCC:</p> <p><i>Even though Twyford sits outside of the area for the Winchester local plan it is inextricably linked to development proposals within the plan, specifically development to the south and west of the parish, by virtue of the services provided to the communities within the plan area.</i></p> <p><i>Therefore, the Parish Council expects the additional burden on existing infrastructure, community and recreation services, along with highway impact will require support through S106 agreements or CIL allocations and that this infrastructure should be identified in the WCC local plan.</i></p>
	<p>The meeting closed at 9.23 pm</p>

## **Item P86/21**

### **Planning Update – Planning Committee May 2022**

#### **Applications Determined in April 2022**

We're looking at getting the lawn levelled. The apple tree (Photo 1) is falling down, it is less than 8ft tall, diseased (fruit has been rotten for the last few years), leaning at 45 degrees and its low branches are at the level of our children's eyes. We would like to have the tree removed. We're happy to plant another tree in its place.

1 betula spp, 1 acer spp, x bay spp, 1 prunus spp. Reduce all crowms by approx 20-25%, remove deadwood + Crown lift to fence height. 1x ash on fenceline - reduce crown by 30% and remove deadwood and wysteria. Neighbouring property have young children and height/proximity to house is becoming a concern.

T1& T2 Ash and Beech - fell to ground level. Both tree are within close proximity to the house and are intertwined within each other. The Ash has extensive dieback present and I feel the beech would not be structurally sound with the Ash gone.
